

1. K-LOVE serves me and my family as a resident of the local community by being a positive and encouraging and productive individuals. We lead by example, according to the Lord's scripture so that other children, teens, and adults can experience our love for the community. Remember, it takes the entire village to raise a child and to sustain the quality of life within its environment.

2. The effect on the local community if K-LOVE were to be displaced would be devastating. K-LOVE is the alternate choice for those who do not wish to engage in listening to obscene or inappropriate language and behavior communicated across our community's air waves. The lyrics in the music played on K-LOVE help to develop the individual into becoming an ethical, moral, responsible, and accountable person. I don't think that the FCC does enough to protect our children when it comes to regulating inappropriate language, content, and behavior.

3. The services provided by K-LOVE is in the public interest. Why? Because, there are no other stations out there who works hard towards helping to develop an individuals character (young or old). The stations, now a days, are only interested in making money, which is unfortunately all based on sex, drugs, and alcohol.
